RE. 27.—The following resolution of the Government of India is republished:—

# HOME DEPARTMENT

## FRAMES

Dated, 24th January 1912.

In the Government of India (Home Department) Resolution No. P-27-12, dated 1st June 1911, as subsequently amended, the Governor-General-in-Council has pleased to appoint a Committee to enquire into the Indian Arms Rules, 1909, and to make any recommendations in regard to them. The Committee have given various suggestions for the amendment of the Rules, and the Report submitted by them is published below for general information.

The Governor-General-in-Council has under separate consideration the various recommendations made by the Committee and official will be duly given to such of them as are accepted.

## INDIAN ARMS RULES COMMITTEE.

### Report.

A resolution was passed in the Assembly on the 24th of February 1911 by Shri T. T. B. Singh, Secretary, to the effect that a Committee with a non-official majority should be appointed by the Governor-General-in-Council to enquire into the new Arms Rules, 1909, and to submit a report before the next session, making specific recommendations with a view to their amendment.

The Resolution was carried and was assigned by the Governor-General-in-Council to the Committee on the principle, (1) that there should be no rigid restrictions in the rules, and (2) that the Government should retain the power to impose restrictions to prevent arms, and particularly firearms, from falling into the possession of lawless or dangerous persons. In accordance with the instructions contained in Resolution No. P-27-12, dated the 1st June 1911, we have considered the Arms Rules, 1909 and submit our recommendations to the Government of India for such action as they think fit.

Our Committee have been enabled after an exhaustive examination of the views of local Governments, the recommendations of the Committee appointed in 1910 to enquire as to the principle on which the rules should be framed, and a large number of memoranda submitted to us by various members of the public, to make a series of suggestions in a general direction, based by the Government of India in their statement on the subject made to the Committee, to make such changes as they think fit. We have received only 10 official and 18 unofficial memoranda containing representations of the army and the public, whose opinions are taken in public, of which work has already appeared in the columns of the press. We commenced our work on the 24th of July and spent its days in recording evidence. We were unable to conclude our work then, and for unavoidable reasons were compelled to postpone our deliberations until the September session of the Legislature. For this reason there has been some delay in the submission of our report.

1. We propose to deal first with the question of the retention, extension, or contraction of the list of exemptions. These lists should be amended generally as a matter of principle, and the majority of the Committee would prefer to see a list of exemptions which was not too extensive. Local Governments, however, are of opinion that it is not desirable to make any changes in the list of exemptions until the Government of India have made a general survey of the whole of the exemptions. A large number of non-official Indians, both in their own and in their writing, maintain that the list of exemptions should be enlarged. After careful consideration of the views put before us, and after examining in detail the various exemptions, we are of opinion that the existing list of exemptions contained in the schedule is in general sound and we make the following recommendations regarding it:—

Under entry 1 (a) we would include Members and Members of the Imperial Legislatures during their term of office and Privy Counsellors. The Committee by a majority do not recommend a similar extension to Members of the Provincial Legislatures.

In regard to entry 2 (a), 2 (b), 3 (a), 3 (b) and 3 (c) we doubt whether the terms Great Officers or Chiefs are sufficiently precise, and we do not see how interpretation is placed upon them by the local Governments concerned, namely, the Punjab, the United Provinces and the Central Provinces. We therefore recommend that inquiries should be made from these local Governments whether they maintain these terms, and if so, in what sense, and whether they are sufficiently precise. It has been represented to us that in some cases persons who are in fact big gamekeepers are included because they are not on the provincial Hunter List. If this is so we think that it is an undesirable extension. We are further of opinion that the report should also be sent to the Government of India, and the list revised accordingly. If such lists of exemptions under this entry are not submitted, we recommend that they should be prepared after the terms in question have been more precisely defined. We append a note by our colleague, Sir Cyril Smith, B.A., making certain suggestions in this connection which we think may possibly be placed before the local Governments concerned for consideration.

Entry No. 1.—We were impressed with the evidence of Shri Bhakhar Mahomed Sahib Khan, Khan of Jhelum, who explained that the persons included in the schedule are persons of high rank, and we accordingly recommend the removal of the persons. We are also of opinion that the same privilege should be extended to the districts of Coimbatore, Bangalore, and any other district adjoining the North-West Frontier Province which are expected to make and conduct arms. The local Government must take exception to this, however.

In every case, we believe that the present practice by which licences are almost entirely secured out of the police is open to objection by the public and should, so far as possible, be abandoned. We suggest that in any case in which a private inquiry is necessary particularly in cases of certified persons the District Magistrate should make it, if possible, by any agency official or non-official he may choose other than the police, such witnesses passing through a Magistrate. In any case in which it is found necessary to have an inquiry made through the agency of a police officer we are strongly of opinion that a licence should not be refused merely on the strength of the report of such an officer alone, but that the District Magistrate should order a magisterial inquiry into the case before coming to a final decision.

11. In some provinces we have found that the extreme strictness of limiting the number of licences issued in the most serious cases. Any arbitrary limitation of the number of licences issued in a district or province may already lead to the refusal of a licence to a fit and proper person. In one case the extreme practice should be that no limit should be placed on the number of licences which may be issued in any district or province. We recognize, however, that considerations may arise in which a rapid increase in the number of licences a particular area may be thought with danger, and we think it advisable that local Governments should have discretionary power, without being compelled to resort to the extreme measure of refusing to issue the number of licences in one area or district if there is reason to apprehend serious danger from the free grant of licences and if such restriction is necessary for the maintenance of the public tranquillity.

12. We would recognize a right of refutation in the case of refusal to grant a licence, but we would not detach the existing rule which requires the reasons of the District Magistrate to be presented.

13. The period covered by the licence varies in different provinces, but we recommend that it should not be less than one year. The scale of fees indicated in paragraph 12 below. Persons should be allowed, at or before, to take licences for three years in payment of a composition fee. We gather this rule is not widely known at present, and we think it would be desirable that the necessary steps should be taken to secure its publicity.

14. In some quarters the criticism has been made that genuine dealers of purchasing a weapon are put to inconvenience in that they are not permitted to receive when applying for the licence necessary for the possession, and it was therefore recommended that a temporary licence should be given to cover such persons pending the grant of a licence for possession. We do not agree with this, and in our view a composition licence should be issued as the term the applicant applies for a licence, and the number and description of the weapons purchased should be fixed by the person from whom the purchase is made and recommended by him to the District Magistrate concerned. In this matter a uniform practice should be adopted throughout India.

15. Another instance in which the present system has been shown to be open to the maintenance of the licence holder or would be licence holders in that of persons arriving at Bombay, Madras or Calcutta, etc., by sea who are not in possession of licences and are therefore compelled to deposit their weapons with their agents or in the District House until a licence can be obtained. We therefore recommend that customs and police officers should be permitted to issue a temporary licence for fourteen days on payment of the full fee, a receipt being given to the licensee. The receipt of the proper licence from the authority empowered to issue the same is to further be shown to the police.

16. We attach some importance to the strict enforcement of condition 3 of the conditions under which a licence for the possession of arms and ammunition is granted. It has been suggested in so far as the procedure in the case of failure to report the loss of firearms should be tightened up. But we are of opinion that the usual system is provided for by the conditions of the licence, and all that is required is to make such strict enforcement. We recommend, however, that the licence should also specify the penalty laid down in the Act for breach of that or any of the conditions under which the licence is granted.

17. The question of a free issue of non-protection licences was raised by a number of witnesses. The evidence given by police witnesses goes to prove that such protection licences are issued freely, but in some cases conditions are imposed such as the production of evidence of the purpose for which the licence is required, before a licence is granted. We recommend the free issue of such licences and particularly an application by or recommendation of individuals who are well acquainted with the local conditions and the extent to which damage is done to crops by wild animals.

18. We have been impressed with the fact that licences are frequently granted on blank paper which quickly perishes, and we recommend the universal adoption of the Calcutta form. There the licence is printed on stout paper, and is enclosed in a cover such as is used in the case of passports. To the bottom a leaflet of instructions, in the vernacular of the province, is attached to the licence, and the instructions should be issued. These instructions should indicate the procedure laid down for the renewal of the licence and the restrictions to which the licensee is subjected. In this matter we stand for conformity throughout India. It has been suggested that the application for the licence should have distinctive marks, and a different colour to the Government of India for consideration.

19. A single licence form should be used for all the weapons classes and not a separate licence for each one. We have found diversity of practice in the different provinces in this respect and recommend that there should be uniformity.

APPENDIX.

SECRETARY LEGISLATIVE COUNCIL,  
Calcutta, 26th Nov., 1912.

Sir,

As suggested by the Arms Rules Committee in their opinion of certain Provisions on Schedule I of the Arms Rules, 1909, for which the Punjab Government have also been asked upon to submit their view regarding clause (d), section 8 of Schedule I; in which connection I was also asked to suggest some definition which might be helpful to the Punjab Government in their this effort.

I may be permitted to submit the following few suggestions which might be taken into account both by the Punjab Government as well as the Government of India, before giving it a legal shape.

Although the Punjab Government has defined the Great Sardars and Jagirdars of the Punjab as those who are Provincial Darbars, yet it seems to me that there is no well-defined criteria which governs the creating and continuing of Darbars. It entirely runs with the arbitrary choice and recommendations of District Magistrates. Hence the definition is not for Great Sardars and Jagirdars.

There may be certain Provincial Darbars who may be regarded as Great Sardars and Jagirdars and yet may not be paying such high revenues as are paid by, or bearing such traditional qualifications as are enjoyed by, those who are neither Provincial Darbars nor regarded as Great Sardars and Jagirdars by the Punjab Government.

Therefore it has become imperative that a comprehensive definition should be provided for in the law.

Not even to ignore the idea of the Punjab Government, let Provincial Darbars be regarded as Great Sardars and Jagirdars.

But even above that, it may be pointed out that although the evidence given by the annual statement from the Punjab and also various other Provincial sources is that as annual land revenue as a definition of Great Sardars and Jagirdars, yet to make it more concrete, I beg to propose that a man whose land is assessed to land revenue of Rs. 1,000 annually, or at the most Rs. 1,500, or is a Jagirdar of the same value, and is also from the Punjab Group Family, in both cases, may also be regarded as a Great Sardar and Jagirdar within the meaning of the clause referred to above.

Might I have observed the matter: the Punjab Government itself has considered the highest value of the annual tax-payer to be Rs. 1,500 as given in the Electrical Rules to qualify a person as an eligible in Landholders' Constituency in the Punjab for the Legislative Assembly and that is the highest limit in the Punjab.

It is, therefore, obvious that such persons payers in the Punjab are very limited in their number. The definition that I have given above will remove the trouble.

There seems no reason why the persons who come of high families of the Punjab Chiefs and are Jagirdars and still pay high revenues, are excluded from this privilege and merely persons picked up by the consent will of District Magistrates should alone be and are regarded as Great Sardars and Jagirdars.

I presume that I have made the point clear, and that it will settle the situation of the Government, and I may be understood at an early date of the definition which may be agreed at by them.

Yours sincerely,

RAJ KUMAR CHANDRA SINGH, M.A.

To the President, Arms Rules Committee, India.

I think that in view of the fact that land revenue in the Punjab is very low landholders paying Rs. 1,000 per annum as land revenue in the Punjab may be accepted.

B. P. Bhatia, M.A.

While approving the view of my friend Mr. Bhatia, I would also suggest to define the word as expression "Armed Revenue" in India also.

M. K. Sen, M.A.

I agree with these views for Punjab.

H. A. J. Grew,  
Arms Rules Committee.

For the reasons pointed out above I am of opinion that in the special circumstances of the Punjab landholders in the Punjab paying no annual land revenue of Rs. 1,000 who are at the same time Punjab Chiefs should be accepted.

HARSHANATH.

MINUTE OF DISSENT BY MR. KAMARUP C. P. RAIPAL, M.A., MEMBER,  
ARMS RULES COMMITTEE.

Paragraph 7.—I do not agree with the majority of the members that my proposal to impose license is not adequate on the payment of the prescribed fee as in the case of unduly persons specified in a list to be kept for the purpose to provide the range of practical politics. The policy of the Government of India in regard to the administration of Arms Rules has all along been a subject of local criticism in the country. It is right that irreparable restrictions and limitations imposed on the possession of firearms have led to the weakening of the Indian weakness. Those of us who

[illegible]

Paragang, Kanchi [1905].—I think it is only fair that the members of the Provincial Legislatures should also be exempted from the tax. It seems to me (perhaps I should be regarded as one of the Caste and Religious) to be a very fair and reasonable suggestion. After all, a considerable number of the members of the Legislatures are drawn from the lower strata of society. This differentiation, I am sure, will lead to considerable bitterness and heart-burnings. I shall, therefore, propose to the Government of India to exempt the members of Provincial Legislatures as well.

Entry 5 (g)—[d] In Oath of Allegiance as such are exempt. Some of them pay consular fees, others, while not taking Oath of Allegiance to enjoy the privilege of citizenship are required to pay the 10.00 dollar naturalization fee. I think with a view to trading which are raising very high with regard to the exemption of Somalis in the Province of Aysas and Oudin I believe suggest that all Expenditure who pay the 10.00 dollar as now actual recommended be exempted. My recommendation coincides with the recommendation made by the United Province Association Conference which met at London in July last.

(k) Heads of Joint Wide families who pay the \$,000 or equivalent land taxes should also be exempted and the male male members on the analogy of the entitled class be considered as laborers to be.

January 11, 1946 and 1947.—I do not agree with the majority of the commission in their reasons for refusing to grant a life license to newspaper holders under three categories. I am not convinced that the majority of the commission are right in their conclusion that newspaper holders are distinguished after the year 1939. They will continue to feel that while those more than 60 years of age are exempt to all income and pay taxes they are still open to apply for license. Most of the individuals who received their Americanism after 1939 had that a new publication in 1939 to them.

Big leafed lilies and a large number of little lilies have a large stake in the nearby I, therefore, see no reason why they should not be assigned. Consequently I recommend that entries 15, 16 (a) and 11 (B) should not only be retained but that all future little lilies, etc., should also be assigned to I.

Paragraph 4—I do not agree with the majority of the committee when they recommend that Magistrates, etc., should not be exempted. I think all Magistrate, stipendiary or Honorary, House-wardens and Honorary Assistant Collectors should be exempted. Magistrates do need leisure to protect themselves what they are not in charge of themselves, etc.

*Paragraph 1*—I think it unnecessary to place restrictions on the number of firms to be possessed by an exemption. I shall, therefore, recommend that no restriction be placed on the possession of firms by exemptions who are almost always loyal and law-abiding citizens.

MINUTE OF DEBATE BY MR. HOWARD PATRICK KEAR, M.P., MEMBER,  
JAMES MILLER COMMITTEE.

I am sorry that I have disagreed on some points in the Arms Sales Review Committee, which was as follows:—

[illegible]

(3) I feel to understand why the public should not only be based on money consideration. A person may not be a Government servant or may not be paying the prescribed sum to the Government or revenue or taxes, but still he may be asked or may be bound either thus many of the Government servants and thus paying the prescribed sum to the Government or revenue or taxes. The Professor of a Government College is an instance in point, who is neither a Government servant nor paying anything or tax. Again, the man or woman or a Kamdar may be thoroughly satisfactory man for keeping a shoppe and still may not be paying any rents or taxes in his shop.

I really do not see why education be not also regarded as a sufficient qualification for coming under the name. Wealth may lead a man astray and may even bring him down to the position of a beggar, but education alone is a sure guarantee for excellent character. I would therefore suggest the inclusion of the following in the nexted clause:—

- (c) Examiners, Teachers, Faculty of High Court of one year's standing ;  
(d) Professors, Teachers and Lecturers in Colleges affiliated to an Indian University ;  
(e) M.A.s.

(4) 2 1/2 lbs of seven years' smoking;

(5) Government pension drawing Rs. 500 and one per month.

(6) It should be especially provided in the laws that the houses will not be laid back on the basis of the individual political views, and, to those who were under actual arrest will get their houses as a right and not as a favour. When justification was there for the forfeiture of houses and areas of vast extent, noble and peace-loving citizens as Pandit Madhai Mohan, Lala Khaywan Das, Khawaja Abdul Wahid and S. Ali Ali, etc. The refusal to issue or return a house to holders of this position, though a point of the "franchise" being made of "land" has the inevitable effect of lowering the prestige of the Government in the country. Big landlords and money lenders putting a large bribe to the Government have been refused houses on the ground of their wanting "Khaddar".

On the refusal on the forfeiture of houses, I have received a good many letters from respectable people and the following was the essence of a few interesting letters in my possession which will reveal the methods sometimes adopted by some of the District Magistrates. A gentleman who is paying as much as rupees twenty-five thousand, an Government servant, who is also a Municipal Commissioner and the daughter of an important official sent a girl school writer:

"The local officials are simply in a sweat of the reason that I was Khaddar in respect to the country's call have forfeited my houses of Amra. I do not know what justification there is the houses are being granted to my petty subordinates only if they say that they are the members of the Amra Sabha, but without giving any reason whatsoever they have done that against me, and together with an other very big and prominent Rajah of..... whose father and they themselves are held in great esteem for no reason apparent except to suit their own whims..... As far as I could ascertain and my knowledge goes the houses were forfeited, that inadvisable should not get houses, and should not possess houses, but every day experience will show that members and families are being committed every day and the houses must also be forfeited, they always have it and people of my social status do not get a house. We have to stand in the queue of others which are apart some of miles, and travel with that heavy load of children at the mercy of others and all, and nothing to protect us. I hope you will do something to relieve the present stand on in the country and save money from these Government who are pleased with a few on bribery." In another letter the same gentleman, writes, "As regards myself, we are followers of Gandhiji and was "Khaddar" I manage my estate, mine as in the month, but certainly I am Government and so is my friend..... But my friend..... does not even wear Khaddar cloth, still wear English suits, though of course he has the example of being a Congressman."

But I will quote you a most important example that the houses of..... had been forfeited, and the reason of this forfeiture I will explain in full (instead of the explanation from the writer of the letter the very gentleman referred to in the above letter, wrote me the reason why his houses was forfeited, which runs as follows): His name is..... Raj and Tahsildar of..... He is one of the very big landlords of the United Provinces and a confirmed landlord, always dancing before the Collector and the Commissioner..... He is an adult of working Khaddar houses that displease the officials as he must wear Khaddar's cap.

Here is what he himself says about the houses of the forfeiture of his houses. "The whole matter is in the name of my father who pays the revenue of about Rs. 4,000 to the Government, my father is supposed to be one of the big landholders of this place, his name is..... as he has previously called them all worldly men and sensitive, as I am carrying his whole business from the last six years, and hence the houses of houses were in my name, which have been forfeited, and the forfeiture of some has caused me very great inconvenience. I had to shift my residence from..... to..... permanently, as it was not quite safe and it was owing to the decision and judgment, though it is not quite safe now here too. I was not taking any part in politics, and why I was a prey of the Government, I shall explain to you in detail. The main reason of forfeiture of the Government was that when I was residing in..... a few of Congress Vyapaks came for schoolships, and I also paid a sum, but that was not the immediate cause of forfeiture, I was serving as a Panch in the Taluk of..... and I was called upon by the Collector to resign my seat from there, which as a gentleman I could not do as, as I had given my word that I will serve as a Panch for a month, this was the immediate cause of forfeiture and he said that if you do not resign your seat from village "Panchayat" I shall forfeit your house on my refusal to resign your seat from the Taluk. At least, was under the impression that Panchayats were an affair of disfigurement to the Government and, on the other hand they were overruled."

Another letter gives quite a different method adopted by a District Magistrate, which runs as follows:

"I have seen a stubborn protest against the houses regulations which seem to exist only in name. We are told that the Reform League had given the respectable families an opportunity to apply for houses for themselves as such as mills, restaurants, etc., but we have fully applied the Reform League to be laid down. For this I am very anxious. I am the landlord of..... my father is paying a considerable Government revenue of Rs. 8,000. When I applied for the houses of a job in the Collector, the Collector depend on the word to the Deputy Collector, and I was called, and I appeared before him and he told me that if I gave Rs. 100 as a contribution to a Government fund I could be given the houses applied for. I proudly told him that I had already contributed a considerable amount and that this was an answer to the present matter, whereupon he said that if I were not ready to comply with his order, I should not have to wait for the houses. He imposed and withheld I left the matter. My intention was never to comply as it was a question of leaving about my own name then as landless that will readily attract just attention. The whole district is suffering with discontent to account of the severity in granting the houses. It is better that I do not quite give preference of the same voters." A second of the above writer, also writes, "My own is a Khaddar because I have not been refused the houses of a small which I require, but I have every reason to apprehend that if I were to apply for it I should have been just refused. The statement of this was not without foundation and reality, because my son who applied for the houses of a job was not given the houses he asked for. We are one of the great landholders of our district, our family is paying Government revenue of Rs. 8,000 (the whole family jointly paying the Rs. 8,000 Government revenue) and myself exclusively paying Rs. 3,000. We really regret that being supporters of Rajah Raj we are not so much treated as to allow us to keep

fire arms. These measures instead of creating amiable relations with the Government being about the greatest breach of his connection with the authorities."

"You above are a few of the typical cases I have selected, and I would only like to give you more later from a prison building a responsible Government post is indicated line, which will show how the other party thinks of the present arms rule. The latter case is as follows:

"As for the Arms Rules in my opinion either the restrictions should be totally abolished or limited orders of that class must be accepted. You can well imagine the anxiety that a person who has been buying at the end of a District Magistrate and that becomes a District Magistrate year is 1911 is exempted which is an offence when is returned with the decision of the District Magistrate of the value of arms in 1911. In my opinion of enquiry is at all necessary it must be answered in a District Committee comprising of officials and non-officials and their decision should be binding."

Before I finish quoting examples, let me quote one more recent instance example of the decision of a Deputy District Magistrate. A leading practicing barrister in a district recently applied for a license of a Double Barrel Shot Gun and the license was duly granted with the following note on the application:

"A license for a Double Barrel Shot Gun for British India has been submitted in the name of the applicant, now he deposits the stamps for fee of the license submitted for orders. The application is a leading practicing barrister in the District." After a search was made the gun license was issued to go and see the District Magistrate. No one knows what conversation was passed between them, but one can pretty accurately guess what conversation would have passed between them too, which led the District Magistrate to write the following amusing and entertaining remarks on his application. The remarks are as follows: "Deposit made. I have seen the gentleman, who seems very anxious whether he is in possession of the established Government or not. Possibly one would like to know from the District Magistrate whether he is in possession of the established Government or not?" Because for violating the license of such a respectable gentleman, has he not seen the great interest and importance with the established Government? one who sees the desire of Government with the established Government, then who should be called the "enemy of the established Government, the Magistrate or the Government?" There is one more and the last example of the means of the Arms Act by a District Magistrate which I would like to show, and I believe these examples to be enough to show some light on the actual working of the Arms Act. A few months ago in Kanchipur the shopkeeper observed Haidal as a particular day, the District Magistrate got enraged and issued an order of the forfeiture of the Arms of some of these shopkeepers was observed Haidal, and the order of the District Magistrate with the reply of the shopkeeper runs as follows:

#### ARMS ACT RULES.

##### A KANCHIPUR CASE.

(From a Correspondent.)

Two copies of the order of the Deputy Commissioner and the reply of nine gentlemen upon whom the order was served are sent herewith.

All these gentlemen are either retailers or wholesale stock merchants. They are men of respectable families. None of them is a non-co-operator. Even that the Government would force them to do so. Well, Sir, was it any use to show the steps on 11th of April? Is that District declared to be a shop district? Can Government force a man to either become a co-operator or a non-co-operator? Is it not a question, gentlemen? Does the Government intend to be true to their duty of their duty? It is rumored that a gentleman is going to be deprived of his license for non-cooperation if he does not soon publicly do some work for the Arms Rules.

#### DEPUTY COMMISSIONER'S ORDER.

On 13th April 1921, a Haidal was observed at Kanchipur in possession of the non-co-operation movement. A number of these who closed their shops on that day are in possession of arms licenses. Some of these have applied. Others have not. The names of the latter are given below:

By observing Haidal these persons should have sympathy with the non-co-operation movement and also showed themselves encouraging of holding arms licenses granted by the Government.

I therefore hereby request the Officers of the police named below and a notice will be served on each of them accordingly to deposit his response in the police station forthwith.

It takes me much of service of the notice the license then a position in my court expressing his regret and seeking aid of his non-sympathy with the non-co-operation movement, the weapon will be returned. Otherwise the license will be cancelled on the expiry of one month.

(1) Late Kishore Prasad Khatri, Haidal Magistrate, Kanchipur; (2) Late Magistrate Baran Khatri, Kanchipur; (3) Late Kaji Bahadur Lal, son of Late Subhakar Prasad, Kanchipur; (4) Late Raj Khatri Khatri, owner of Late Subhakar Prasad; (5) Late Purna Prasad Khatri; (6) Late Khar Lal Khatri; (7) Late Ganga Prasad; (8) Late Chhanda Lal Khatri; (9) Late Shyam Baran Bar Baran Khatri; (10) Late Subhakar Lal Magistrate Baran; (11) Late Shiva Lal Vaidh; (12) Late Ram Lal Vaidh; (13) Chhanda Anand Nath, Chairman Municipal Board, Kanchipur.

#### THE RESULT.

TO THE DEPUTY COMMISSIONER,

Fort St.

Sir,

In compliance with your order dated 7th June 1921, some of us have deposited our weapons in the police station, Kanchipur, and others with Shri Kishore Prasad, a local licensed dealer in arms. As order has been both the courses are open to us, those of us who have elected the latter have done so on the hope that it will facilitate the disposal of these arms and enable us to receive a part of their value in some way or not please to record the above-mentioned order.

I. Under section No. 272-C of the Government of India, Arms Department, dated the 21st March 1915, payment of Rs. 1000 Rs. 1,000 per annum, as had been, in payment of an insurance.

4. A second right is guaranteed by the law of the land: everyone has the right to a maximum of non-symmetry with the non-cooperation movement from which it is. We are very keen to understand the full impact of the words. As we have stated above, we have to make it certain that we are not frequently, with public services for various purposes, such as the dissemination or payment of services or income tax, or for payment of litigation or settlement, and in connection with proceedings in court, the right of any of us to be in possession of these assets is significant enough. Besides, in the existing public services, especially in the case of the police, the fire department, e.g., in the case of the fire department, in the case of the non-cooperation crisis, the management and maintenance of the social health system, in one town, and one of us, Ralf Halbesleben, President of an Amnesty campaign. Under these circumstances it would not be surprising to imagine that we are required to subscribe by giving an assurance of non-symmetry with the non-cooperation movement. It is also possible that we are required to give an assurance of non-symmetry at cottage lodgings and religious associations, with all the other people, and the simplicity of oriented living, social and temperance reform, education and development of individual and cultural areas of self-respect, and there all, the reduction of the permanent necessity of the maintenance of public peace and order under all possible conditions and circumstances. It is also possible that we are required to give an assurance of non-symmetry with the feelings of personal unity and growth and the desire to be free and by the new places in the non-cooperation non-cooperation platform. As we are required to give an assurance of non-symmetry to turn our back against the state and all of these and, if we would not conduct it by public means and ourselves to the [rejection of the state 2. Further, in any case of these activities prohibited by law, it is not, it is not to be deprived of the legal rights and privileges because of the legitimate view of the sector or in character of the movement.

[illegible]

Under these circumstances we beg leave to admit that possession of such weapons as we have surrendered in obedience to your orders is absolutely essential for purposes of self-defense for persons of our status, and we hope that on reconsideration you will be pleased to extend your understanding and tolerance so that our arms may be returned to us.

It is unfortunate indeed that even now the natives and other respectable people are deprived of the right of possessing firearms by law, while Anglo-Indians at the police of

If I remember aright the Commission had decided that the power of fixing the number of houses in any district, in case of necessity, should still reside with the local Governments. May I just say a few words about this and touch this subject with the hope that these few words will be dealt with with care and a broader vision. I do not think that any house in the local Government is given such power, but, before limiting or reducing the number of houses in any particular district, I hope the local Government will kindly ascertain through their local gaucans—at least a month before—the sense with the date of the election where the new order is to be introduced, and also the reasons for doing so, with the opinion, if possible, of some of the leading officials and the officials of the district concerned. Then and then alone should the local Governments be empowered to enforce this order.

No. 51.—The Secretary of State has decided that the phrase "the first occasion hereafter on which any Government servant takes leave" appearing in paragraph 4 of the Government of India, Finance Department, (later No. 105847 S.C., dated 1st July 1921, republished in the Supplement to Part I of the *Port St. George Gazette*, dated 6th December 1921), should be interpreted to refer, in the case of a Government servant who was on leave on 1st January 1922, and who proposed coming under the Fundamental Rules still after his return from leave, to the first occasion on which he takes leave under the Fundamental Rules. In the case of a Government servant who has availed the option of cancelling the unexpired portion of his leave and coming under the Fundamental Rules with effect from 1st January 1922, he may do so without reference to the occasion of leaving during "leave corresponding to privileges here" the pay of the post on which he has a lien, but will be entitled to enjoy this exemption on the next occasion on which he takes leave thereafter, except, however, in the proviso that, if he definitely takes first leave authorised here from 1st January 1922 should be reduced as the first occasion on which he takes leave under the Fundamental Rules, his request should be complied with.

Some Presidents object to this rule on the ground that such boards are more or less independent of them under the new Local Boards Act, 1920, and that they are not responsible for the transactions of the rural boards. This seems to be reasonable.

The object of the rule which is based on article 103, Civil Assistant Code, seems to be that the Agent or other is interested by the Treasury Deputy Collector in the Local Board branch should be reviewed by another gazetted officer. Under the old Local Boards Act, 1884, the Collector President or the Vice-President, or the Headquarters Deputy Collector usually conducted this review.

Under the new Local Boards Act, 1920, there seems to be no reason why the same rule should apply to Local Boards should be required to check the expenditure submitted by the Agent or other when the Treasury Deputy Collector is not subject to any control of the President.

#### Notes.

In the circumstances explained by the Treasurer of Local Board Accounts, Rule 213 of the Local Boards Manual and Executive Instructions (249 and 250) should be omitted.

Port St. George, January 26, 1923 (G.O. No. 102, I. & M.).

Mr. W. C.—The following Government Order is published for general information:—

The following form of a rule which the Local Government proposes to make under clause (a) of sub-section (3) of section 103 of the Indian Local Boards Act, 1920, and in pursuance of all previous rules on the subject, as to the information to be furnished through which correspondence between the local boards and the Government shall pass, is published under clause (a) of section 103 of that Act. A secondary school-leaving certificate-holder who qualifies in one of the four selected subjects in Group C but who fails to qualify in a second subject of that group shall be eligible for admission, provided that in the former subject he obtains seven marks equal in number to twice the number of marks by which he is deficient in the latter subject.

4. A secondary school-leaving certificate-holder who fails to qualify in Vernacular Composition, or Elementary Mathematics, or in both, and also in a second subject of Group C may be declared eligible for admission, provided that he obtains seven marks in each both in the other subject or subjects in Group A and in one of the four selected subjects of Group C.

5. The eligibility of a school-leaving certificate-holder will be determined for each Group of subjects separately, by the test of Passmark average or fixed percentage throughout, or by the test of Passmark average in Group A and fixed percentage in Group C, or vice versa.

6. A secondary school-leaving certificate-holder who fails to qualify under the preceding rules by reason of deficiency of marks—

(a) in one subject only—

will be declared eligible for admission,

if the deficiency of marks is not more than one mark, irrespective of his total marks

For the purpose of this rule, in calculating the total marks gained, the higher mark obtained in each subject will be selected, whether vernacular work or unvernacular mark, and in calculating the deficiency of marks the smallest deficiency will be selected, after application of both adjustments in rules 1 and 2 and after applying rules 3, 4 and 5.

In the case of a secondary school-leaving certificate-holder who has been exempted the study of Vernacular Composition and Translation and has taken a classical or foreign language and one other subject only under Group C, the total marks required under this rule will be reduced by one-half, provided always that in the case of such certificate-holders the total number of marks will be adjusted to compensate for deficiency of marks in the language or taken under Group C.

In the case of a certificate-holder who has been exempted the study of Vernacular Composition and Translation and has taken a classical or foreign language and two other subjects under Group C, the total marks required under this rule will not be reduced (his marks in each of the five subjects being taken into account), and compensation for the deficiency of marks will be admissible under this rule irrespective of subject.

1. The marking of the marks obtained by a holder of a secondary school leaving certificate for the purpose of the above rules will be effected as follows:—

The individual mark given by him for the last year of school in each subject will be multiplied by the average mark for the school at the Public Examination and the result divided by the average mark obtained at the examination from the school exactly appearing for the Public Examination. The figure thus obtained will be added to the individual mark given by him at the Public Examination and the total will then be divided by two to obtain the final awarded mark.

2. In the case of candidates seated under the authority of Native States in the territorial jurisdiction of the University, similar standards for admission will be applied.

3. Any candidate for admission to University courses of study who in any year fails to qualify by reason of deficiency in any subject or subjects in which he has undergone examination, will be required to undergo a supplementary course at school in all the subjects of Group A, and in two subjects of Group C. He must again appear at the Public Examination at the close of this supplementary course and his eligibility for admission will be determined, according to the preceding rules, either by the marks obtained by him at the last examination or by the average marks throughout in each subject obtained by him at the last and the supplementary examinations. Also in the case of a candidate who, after undergoing a supplementary course and examination, has failed again to qualify for admission to University courses of study and who is presented to appear at the Public Examination in a subsequent year after previous study, eligibility for admission will be determined, according to the preceding rules, either by the marks obtained by him at the last examination or by the average marks throughout in each subject obtained by him at the last and the supplementary examinations.

4. Hereafter candidates for admission to colleges, whose last appearance at the Public Examination was in 1918 or earlier, must submit their certificates to the office for inspection not later than the 31st April. Every such certificate will be judged by examination marks shown according to the rules in force for students registered in the year in which it is submitted for inspection except that the best performance in each subject in any year will be taken into consideration.

5. Notwithstanding anything contained in the foregoing rules, the Principals of Colleges for Women will be permitted to make admissions at their discretion of female holders of secondary school leaving certificates whether or not the names of such holders of certificates are included in the published list of certificate-holders eligible for admission to University courses of study. Candidates admitted so admitted to Colleges for Women will be registered as candidates under Regulation 1 of Chapter XII.

6. The list published annually in the Fort St. George Gazette will contain the names of all certificate-holders found to be eligible for admission to University courses of study in affiliated colleges, other than Colleges for Women, under the rules and directions issued by the Statutes. It is, however, to be clearly understood that inclusion in the list confers no or certificate-holder the right of admission to any affiliated college. The Principals of Colleges are at perfect liberty to admit students to such applicants if they may select and are however required strictly to make admissions to such eligible certificate-holders as, judged by their certificates, may be expected to profit by the particular course of study upon which they propose to enter in the college selected.

**Conditions of Auction Sale.**

1. A deposit must be made by each bidder before bidding and will be received by the selling officer on the day of sale. A deposit of Rs. 10 will ordinarily be received from any person wishing to bid for any important shop or any large number of shops. This will be reduced to Rs. 50 in the case of bidders for not more than two or three shops of an aggregate monthly value of Rs. 25 or less and to Rs. 5 in the case of bidders for single small shops.

3. No person will be allowed to bid for another unless he holds a power-of-attorney from him. 4. 5. The shops will be knocked down to the highest bidder. If for any of the reasons mentioned in the preceding clause the highest bid is rejected, the next highest shall be taken or the shop must be at the selling officer's disposal. In case of dispute the selling officer's decision shall be final. The sale will be subject to formal confirmation of the Collector, who shall be at liberty to accept or reject any bid at his discretion. Such formal confirmation will be tantamount to an acceptance of the bid.

amount raised by the Board of Licensees for special reasons, and will be necessary whether the sale be held by the Collector himself or by any officer appointed by him.

VI. At the close of each day's sale, the deposit made by the unsuccessful bidders will be returned to them. As the auction proceeds, such persons whose bids are accepted shall at once, if so required by the selling officer, or otherwise at the close of the day's sale, make a further deposit of half a month's rent (or addition to the deposit made under clause I) for each shop unless the initial deposit equals or exceeds two months' rent. Should he fail to do so, the deposit made by him under clause I will be forfeited and the shop will be put up again immediately by the selling officer. In the event of the person continuing or otherwise disposed of by the Collector and the licensee will be declared to be bidding again for the same or for any other shop in the sale then in progress.

VII.
